## PERENNIALS

We have one of the largest and most complete assortment of Hardy Perennials, Alpine and Rock Garden plants of any nursery in the Middle West. Our plants are, except as specified, field grown, properly transplanted to give the necessary root development for high class landscape planting.

We have approximately 100 acres of overhead irrigation, devoted to the propagation of our Perennial and Rock Garden plants. We have searched the world over for new varieties of seeds and plants.

All perennials should be shipped by express. They are very perishable and should not be included in a freight shipment.

**RG** indicates the adaptability for rock garden planting.

The perennials that we are offering in this section are bare root, most suitable for landscape planting.
